

# HTML Assignment

## Assignment-01:

"Design a Simple Webpage About MCA Course at USBM College, Bhubaneswar"

### Instructions:

Create a basic HTML webpage that provides information about the **MCA (Master of Computer Applications)** course offered at **USBM College, Bhubaneswar**.

### **Requirements:**

1. Use appropriate **heading tags** (<h1> to <h6>) to structure the content.
2. Include detailed **paragraphs** (<p>) describing the course, college location, eligibility, duration, and career opportunities.
3. Use the **horizontal rule** tag (<hr>) to visually separate different sections of the webpage.
4. Use the **line break** tag (<br>) for adding line breaks within paragraphs where necessary.
5. Save the file as usbm-mca.html.

## Assignment-02:

"Design a Simple Webpage with Personal Details Using HTML"

### **Instructions:**

Create a basic HTML webpage that introduces yourself using simple HTML tags.

1. **Your Name** – displayed using a heading tag (e.g., <h1>).
2. **Your Class** – shown using another heading or paragraph tag.
3. **A Short Introduction** – written in a paragraph using the <p> tag.
4. Add at least one **horizontal line** (<hr>) to separate sections.
5. Use one or more-line **breaks** (<br>) to format text as needed.
6. Save this filename as personal-info.html.

### Assignment-03:

#### "Create a Personal Profile Page Using HTML Headings and Formatting Tags"

#### Instructions:

1. **Headings (<h1> to <h4>)** for:
  - Your Full Name
  - Profession or Role (e.g., Student, Developer)
  - Section Titles (e.g., About Me, Hobbies, Skills)
2. **Formatting Tags:**
  - <strong> or <b> for bold text
  - <em> or <i> for italic text
  - <u> for underlined text
  - <br> to break lines where needed
  - <hr> to separate sections
3. **Save as** My-profile.html.
